

MTS & MTS-B

Manual Tailstock

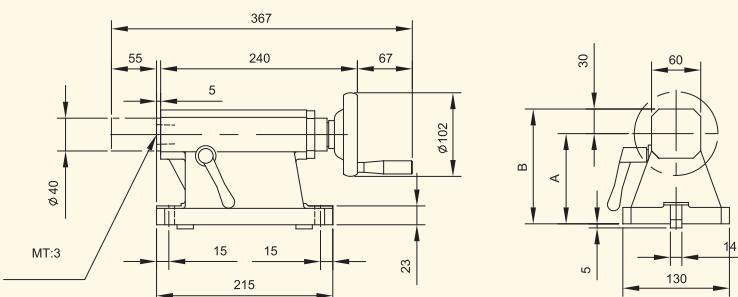

It has been designed to complement many of our Non-Lifting Indexing and NC Rotary Tables when heavy and/or long piece parts are being machined. Each model have standard center taper attached. MTS series attach MT#3. The bigger type of MTS - B series attached MT#4. The MTS models are actuated via an operator rotating the hand wheel by hand until the required pressure is reached. Standard center height from 110~400mm, please contact us if you have any other request.

MTS & MTS-B Series / Manual Tailstock				Suitable model			
Manual Mode	Central height A	Central height B	Net weight	TRT	NCT	HC	CT-V
